PUTNAM'S "REBELLION RECORD."-During the FUTNAM'S "REBELLION RECORD."—During the trial, in the United States Circuit Court, which terminated yesterday, in the conviction of William Smith for piracy, as one of the crew of the Jeff. Davis, a great deal of documentary evidence, to show the reality of secession, was offered in evidence by counsel for the defense—avowedly taken from Frank Moore's "Rebellion Record," and received by Judges Grier and Cadwalader, who presided. This is a remarkable compilment to the work in onestion—but Cadwalader, who presided. This is a remarkable compliment to the work in question—but not higher than it merits—from the fullness and fairness of its varied information respecting the origin and progress of the rebellion. It is the first time, in legal and literary history, that a book not yet completed has been so stamped with authenticity as to be admitted as evidence in a court of law, and on a frial for a capital offense. The work is one which, in the daily discharge of our duties, we constantly refer to discharge of our duties, we constantly refer to with full reliance upon its containing a judicious collection of news, as it occurs; of documentary narratives, and of poetry, rumors, incidents and ancodotes of the war. From the leading journals is carefully culled a great deal of information on both sides. Of this work the first voltion on both sides. Of this work the first volume is completed, forming a thick 8vo, with an
original introduction on the causes of the struggle, and the great issues before the country, by

This volume includes the fime from December,

From Washington. [Tribune's Dispatch.]

WASHINGTON, Nov. 20 .- The soldiers at Beaufort and the slaves on the island will soon be picking the ungathered cotton, the former under au order from the Government, and the latter upon the impulse of wages directed to be paid them by Gen. Sherman. It is also probable the cultivation of the sea island for the next cotton crop will be contracted for by some responsible Yankee, who will be required to employ the slaves abandoned by their masters upon the

several plantations.

A new punishment for Virginia is at band.—

Congress will probably be called on to change the territorial boundaries of Delaware so as to give this little State all the land between Chesapeake Bay and Delaware river, and to change the boundaries of Maryland so as to give her all the boundaries of Maryland so as to give her all the eastern counties of Virginia, and to leave to the State of Virginia, as organized by the Convention at Wheeling, the territory between the Blue Ridge and the Ohio.

Private but trustworthy advices from Europe in relation to Mexican affairs, have been received.

The rebel State Legislature, in session at Neosho, had passed an ordinance of secession, united the State with the Southern Confederacy, and elected Gen. Rains one of the Scate with the Southern Confederacy, and elected Gen. Rains one of the Scate with the Southern Confederacy, and elected Gen. There is reason for believing that the rebel forces on the lower Potomac have been withdrawn within a few days, leaving but pickets and small detachments to man their batteries, and perhaps one regiment about a mile back from Mathias Point. Many of the camp fires which were visible last week have disappeared.

A body of rebel cavalry made a demonstration on our right flank this morning as the regiments were moving to the field of review, but retired hastily. Toward the close of the review heavy firing was heard on the flanks, creating some commotion; cause unknown.

The report that the Spanish minister said he would have demanded his passports had Messrs.

WASHINGTON, Nov. 21 .- Since the negotiation of the new loan on Friday last, Secretary Chase has placed to the credit of disbursing officers in New York, Boston and Philadelphia, the sum of \$5,504,874, to be paid to contractors and other

Government creditors.

The steamer Stepping Stone ran the blockade Tuesday night with stores for the flotilla on the lower Potomac, transferred her stores to the squadron, and taking on board a number of contrabands from the steamer Bultimore and Ice Boat, again ran the blockade last night, and arrived at the Navy Yard.

Lord Lyons has made no offensive comments upon the Mason and Slidell affair, and the reports to the prejudice of that Minister which have been put in circulation are positively contradicted in diplomatic circles here, and it is quite certain that Lord Lyons will commit no breach of courtesy. If he has any communi-cations to offer they will be made in official form, but there is no indication that such ac-tion is contemplated. The facts in the case are very clear, and that our Government ought to seize the rebel Commissioners is too clearly catablished to admit of much argument. Col. McLeod Murphy's Regiment gave an exhibition of the mode of laying a pontoon bridge over the Anacosta river. The work

was rapidly and skillfully performed.

A Provisional Government in North Carolina-Secession Repudiated. New York, Nov. 20.—A letter from Hatte-A Provisional Government in North Carolina Secasion Repudiated.

New York, Nov. 20.—A letter from Hattoras Inlet of the 18th, says we learn that North Carolina, by convention of delegates representing forty five counties, has declared a provisional government and has entirely repudiated the secession act of the State, reaffirming her loyalty and devotion to the Constitution of the United States. The Convention met at Hatters on Monday last. The act passed contains any say and sections, the substance of which is: terns on Monday last. The act passed contains several sections, the substance of which is: The first declares vacant all the offices of the State; the second names Marbie Nash Taylor, Provisional Governor; the third adopts the constitution of the State, with the statutes and

laws contained in the revised code of 1856; the fourth repudiates the ordinance of secession passed at Raleigh on the 20th of May, together passed at Kaleigh on the 20th of May, together with all other acts then adopted; the fifth directs the Provisional Governor to order a special election for members of Congress; the sixth gives to the Governor authority to make temporary appointments to official vacancies. The Convention then adjourned, subject to the call of the President.

Boston, Nov. 21.—Twenty-five of the rebels captured on Santa Rosa Island, in the attack Switzerland relative to the valley of Deppess the affair will probably be adjusted without unplessantness.

New York, Nov. 20.—The Times has a letter from on board the gunboat Cayler off Ship Island. At that time (4th instant) there were in New Orleans some five thousand rebal troops, all well armed but poorly clothed, and an order had recemily been issued compelling every man capable of bearing arms to join some military organization. The city was being environed by batteries on every side, excepting in the rear, from which the rebels appear to apprehend no attack, but which in fact can be easily assailed by a well appointed force. The land on that side is swampy and the city is unapproachiable, excepting by the shell road and the railroad; but it is believed that a force of ten thousand men could overcome all difficulties and capture the city in ten hours. GREAT CURE DR LELAND'S ANTI-RHEUMATIC BAND IS THE ONLY KNOWN REMEDY FOR Rheumatism, Gout and Neuralgia,

AND A SURE CURE FOR

All Mercurial Diseases. It is a conveniently arranged Band, containing a medicated compound, to be worn around the Waist, without injury to the most delicate persons; no change in habits of living is required, and it entirely removes the discase from the system, without producing the injurious effects arising from the use of powerful internal medicines, which weaken and destroy the constitution, and give temporary relief only. By this treatment, the medicinal properties contained in the Band come in contact with the blood and reach the disease, through the pores of the skin, effecting in every instance a perfect cure, and restoring the parts afflicted to a bealthy condition. This Band is also a mostpowerful Arri-Mixtourial agent, and will entirely relieve the system from the persocious effects of Mercury. Moderate cases are cured in a few days, and we are constantly receiving testimonials of its efficacy in agaravated cases of long standing.
